WORK EXPERIENCE

MIS Analyst | SQL | Power BI | Advanced Excel

Nehru Place, Delhi

AGARWAL ASSIGNMENT Pvt Ltd

Apr 2025 - Present

- Automated daily dashboards in Excel & Power BI, **improving reporting speed by 30%** and enabling actionable insights for management.
- Tracked disbursement and collection trends compared to previous month to monitor business performance and help to improve efficiency.
- Conducted customer & city-level analysis** (age, income, repayment behavior) to identify profitable markets and reduce portfolio risk.
- Automated a Marketing ROI dashboard** in Power BI linking campaign costs, clicks, and lead conversions with disbursement amounts, improving channel performance visibility.
- Performed delinquency bucket analysis** (0–30, 31–60, 61–90, 90+ days) to monitor overdue loans, reduce NPAs, and provide early warning signals for bad debts.
- Integrated SQL databases with Power BI** by connecting to company server, enabling real-time reporting and automated data refreshes.
- Regularly used Google Sheets, Docs, and Slides for reporting, documentation, and presentations.

PROJECTS

Uber Data Exploration and Visualization | Python | SQL | Power BI | [Link](#)

Feb 2025 - Mar-2025

- Cleaned & analyzed Uber rides dataset using Python and SQL to study customer travel patterns.
- Built Power BI dashboards to visualize demand by ride category, purpose, and time.
- Key insights:**
 - Most bookings were for business purposes (meetings/entertainment)
 - Rides peaked on weekdays (Mon, Tue, Fri) during afternoons
 - Avg. trip distance was 10 miles, highlighting scope for driver allocation & marketing focus

Retail Store Performance Analysis | Advanced Excel | [Link](#)

Jan 2025 – Feb 2025

- Analyzed retail sales dataset to study customer behavior, product categories, and sales channels with the objective of improving overall sales performance.
- Performed advanced Excel operations (data cleaning, age grouping, monthly breakdowns, pivot tables, slicers, and charts) to build an interactive sales report.
- Key insights:**
 - Women drove 65% of total sales
 - Age group 30–49 was the most active
 - Maharashtra, Karnataka & UP were top states
 - Amazon, Flipkart & Myntra were leading sales channels

TECHNICAL SKILLS

- Programming Languages:** SQL (Joins, Subqueries, Aggregations, CTEs, Window Functions), Python (Pandas, Matplotlib, Seaborn)
- Data Visualization Tools:** Power BI (Dashboards, DAX, Power Query), Excel (Pivot Tables, Macros, Advanced Formulas)
- Data Analysis Techniques:** Exploratory Data Analysis (EDA), Trend & Variance Analysis, RFM Analysis, Root Cause Analysis.
- Generative AI Tools:** ChatGPT, Gemini, Claude, Copilot (for problem-solving, automation, and documentation).
- Soft Skills:** Problem-Solving, Communication, Team Collaboration, Presentation, Critical Thinking

EDUCATION

Bachelor of Science (Mathematics, Physics, Chemistry)

2020-2023

Soban Singh Jeena University (SSJU), Almora [UTTRAKHAND]
